

# HDPE PIPES

## OUR COMPANY

Pentas has an extraordinary vision to create a global company that supply the highest quality HDPE piping products to the international market. We have continually evolved to be a major supplier to projects and customers around the world. Worldwide users include municipalities, water authorities, major international contractors, government and public utility undertakings and other major distributors.

## OUR PRODUCTS

Pentas supplies High Density Polyethylene HDPE pipes for size ranging from 16MM OD up to 1,200MM OD, Pressure classification starts from 4Bar up to 25 Bars. Standard cutting lengths for smaller pipes up to 125MM OD are 100M and 200M. Larger diameters have standard cutting length of 6M and 12M. Other pressure classes and cutting lengths outside the standard can be produced upon special request.

**Quality | Reliability | Performance**
